

## Guidelines for series approval of products for **Microwave Ovens**

Basic Configuration	Grouping as one series provided product has
Microwave Oven	<ul style="list-style-type: none"><li>• Same Input Power rating.</li><li>• Same Mains layout / Power Supply.</li><li>• Same Enclosure except for differences of decoration.</li><li>• Same Magnetron power.</li></ul>

### Guidelines for Quantitative Selection of Samples

- A series may consist of 10 models.
- Unless specified otherwise, one sample may be tested for each series.
- In any of the above consideration, worst case configuration from Safety Design perspective must be selected for testing.
